

TOOLS FOR TEACHERS

TOOLS FOR TEACHERS

These five Tools for Teachers Skill Trees will make every teacher's life easier. Make flash cards and worksheets in minutes or quickly place your students in the appropriate math or reading level with these helpful accessories.

Flash Card Maker

95TT

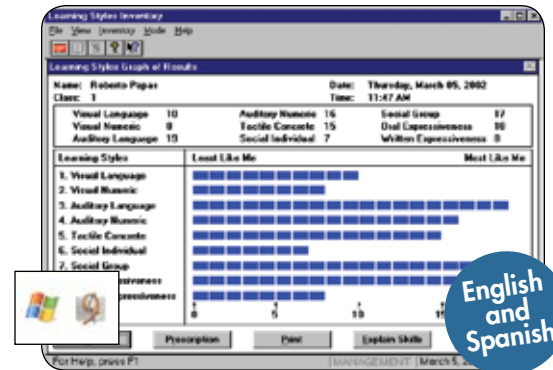

Grades K-12

Take all the trouble out of making flash cards customized to your curriculum with this powerful tool. Flash Card Maker requires minimal preparation time and will help you provide your students with additional practice in any subject.

- Many built-in templates
- Graphics for word-meaning cards
- Options for customized text and alternative styles and sizes

Learning Styles Inventory

123TT

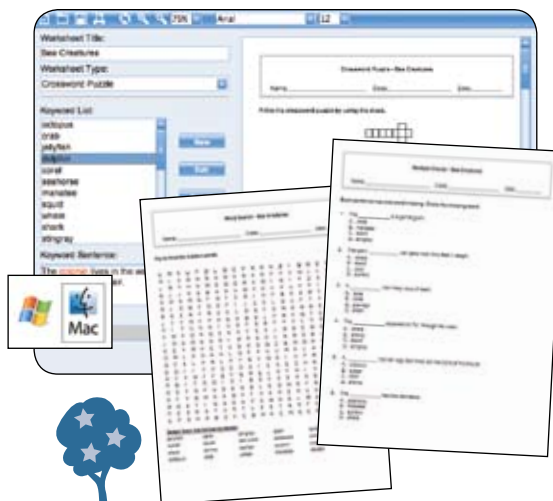

Grades 4-12

Research has shown the importance of teaching to a student's preferred learning style. Educators can use this simple but effective tool to first diagnose individual student learning preferences and then provide instruction that accommodates how students prefer to learn and to express themselves. Tabulation of student responses results in a graph of the student's learning-style preferences in cognitive, social, and expressive categories of learning.

Worksheet Maker

93TT

Grades K-Adult

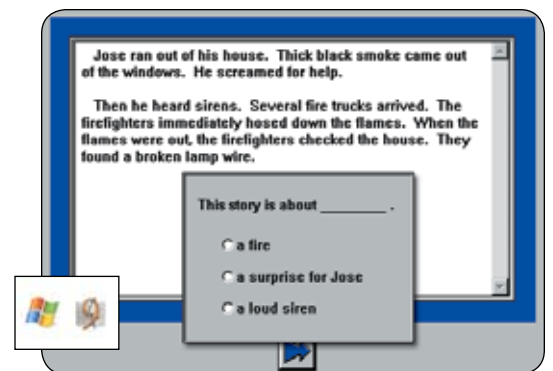

Prepare and print up to 15 customized worksheets and tests in minutes.

- Creates multiple choice, mix-and-match, and fill-in-the-blank tests for any subject
- Builds crossword and word search puzzles
- Develops word searches, scrambled words, and sentences

Reading Placement Test Math Assessment Test

124TT

125TT

Grades 4-12

Reading Placement Test

- Develops reading levels from pre-readiness to adult
- Includes analogies and definitions
- Readability formulas include Spache, Fry, and Dale Chall

Grades 1-6

Math Assessment Test

- Includes addition, subtraction, multiplication, and division
- Addresses 119 skills typically taught from grades 1 to 6
- Assign the entire test or select specific skills to be tested

 — Windows®

 — Mac OS X

 — Mac OS 9
